CRUISERWEIGHT™

Ideal For Facilities With:

- Moderate to severe panel damage
- Moderate to severe track damage
- Higher wind load requirements

Retractable Plunger

OPTIONS ▼

Non-Insulated Panel

Double Knockout Header

Clear Vision Panel

Bottom Brush Seal

Damaged dock doors are a common problem for busy loading docks and drain valuable resources that affect your bottom line. The TKO CruiserWeight® Dock Door is designed to prevent damage to the door panels and track when impacted and is the industry's most rugged door.

DESIGN BENEFITS

1. Full height 12 gauge galvanized steel track standard
2. Optional Impact-A-Track provides total protection against the most abusive impacts from top to bottom. 3', 6' or full height available 5-YEAR IMPACT WARRANTY
3. 1 - 3/4" thick insulated, foam core panel with damage resistant polymer interior panel skin 2-YEAR PERFORMANCE WARRANTY
4. Heavy-duty, retractable plungers allow door to release from the opening upon impact
5. Tight perimeter weatherseal eliminates air infiltration and light gaps. Seals are attached to the panel versus the door jamb, keeping them out of harm's way and providing a consistent seal
6. Heavy-duty fabric hinges
7. One lock for security
8. Rugged door lifting handles (two per door)
9. Flexible bottom seal for airtight fit to the floor

OPTIONS & ACCESSORIES

- Non-Insulated 3/4" thick, 7-ply wood core panel durable enough to handle heavy impacts
- PowerHouse™ Panel - polycarbonate interior skin provides superior protection against severe impacts. 2-YEAR IMPACT WARRANTY
- Wind Load Package (see back for details)
- Double Knockout Header track allows the door to knock out in both directions at the top of the door opening (vertical lift track only)
- Clear Vision Panel is a 24" high panel that runs the full width of the door to provide energy-saving sunlight inside and full visibility outside the facility.
- Single Pane, Double Pane or Vented Rectangular Windows (Wind Load Package available only with porthole window)
- Additional exterior color options available upon request (insulated doors only)
- Power operation or manual chain hoist
- 3" Bottom brush seal in addition to loop seal
- E-lift Adjustable CounterWeight System in lieu of springs

TKO WINDLOAD PACKAGE

The TKO CruiserWeight with Wind Load Package is now the only Sectional Knockout Door approved for high wind load environments, including those in hurricane-susceptible areas. Able to withstand pressures of +52 and -67.5 pounds per square foot, the TKO CruiserWeight with Wind Load Package received Florida Building Code Approval #FL13014.

Highlights of this package include:

- Polycarbonate interior skin
- Full-height, reinforced Impact-A-Track
- 3 knockout-capable bottom panels
- Slide locks to secure the door during a high-wind event

Consult your sales representative for more information and a free evaluation of your facility.

EXPERIENCE TKO'S POSITIVE IMPACT FOR YOURSELF

VIP Program: TKO invites you to visit our modern showroom in Dallas, Texas, to view our full line of doors and other loading dock equipment. Our Visit-in-Person (VIP) program offers a unique opportunity to gain hands-on experience with our products, tour the manufacturing floor and interact with industry experts in a comfortable environment.

Can't make the trip to Dallas? We'll bring the proof to you

TKO Demo Trucks: Our TKO Door Specialists will visit your facility in person to show you how TKO doors can make a difference at your facility. From our complimentary Energy Efficiency Analysis to our custom TKO demo trucks, you'll see just how TKO doors can stand up to whatever comes their way.

Mobile Showroom: Our 53-foot completely enclosed and temperature-controlled trailer features over 20 full-sized, fully functional dock equipment demo units, including TKO Doors. Our Mobile Showroom travels across the country all year, and will visit your facility whenever it's in the area.
